

4135

Cochita Group. Mr. Mc Cartney - July 10/29.

Notes -

Price, terms, &c.

Should furnish mill water?

Speaks of 1000' tunnel - later 1100'?

" " 63' width vein, near face, "All in ore" - What ore?

When were Eng's reports made, &c.

Refers to ore taken out

Albemarle Group workings inaccessible!

Heffern gives class tonnage 67,372, ^{\$9.06} (Long Star) Johnson =
160,000, t. \$12.01 - who is right.

Jones estimates of ore insight in Canon Point, Long Star & Washington -
very conservative - but does not give what it is.

Lists of assays tell nothing without descriptions, &c.

In short, without complete reliable reports, maps, &c. - one
cannot form any opinion of merit.
